**SIMPLICITY THROUGH INNOVATION**

**Advanced Technologies and Techniques for Simplifying Implant Dentistry**

BIOMET 3i is at the forefront of developing technology and technique-based solutions to overcome obstacles in implant dentistry aimed at enhancing functional and aesthetic implant outcomes. Computer assisted design and manufacturing (CAD/CAM) has revolutionized the surgical and restorative aspects of implant dentistry. Attendees will learn how to use these exciting new digital technologies to create patient specific, customized abutments for single-tooth, partially dentate restorations and bar-type prostheses for edentulous areas while at the same time, decreasing patient time.

**Speaker Biography: Viv Chander, DDS**

*Dr. Chander* received his dental degree from the University of Western Ontario, School of Dentistry. He has a leading edge dental practice in Ottawa, Ontario with an emphasis on complex reconstructive and implant dentistry. Dr. Chander is an Alumni member of the L.D. Pankey Institute and having completed all their core and interdisciplinary continuum courses, has become a mentor to other Pankey students. He is the owner of CanDental Labs Inc., a small commercial laboratory. As well, he is a member of the American Academy of Implant Dentistry, International Congress of Oral Implantologists, Pankey Alumni, Ottawa Dawson-Pankey Study Club, Ottawa Dental Society, and the Ontario Dental Association.
